

Job Opportunity: Project Manager for Automotive and Industrial Division (full time)

About us

Pressteck S.p.A. is a global leader in high precision deep drawn metal components, renowned for our excellence and innovation in the pharmaceutical, automotive and electro valve industries. Pressteck is a second-generation family-run company based in San Vito, Sardinia, with more than 120 employees.

Due to our continuous expansion, we are seeking a **Project Manager** to join our team at our **Muravera (Sardegna)** production site.

Your mission:

As Project Manager, you will play a pivotal role in ensuring the successful execution of client projects from concept to completion. Your responsibilities will include:

Key responsibilities

- Leading and coordinating **cross-functional project teams**.
- Organizing and conducting **meetings with clients, suppliers and internal stakeholders**.
- Reviewing contracts and supply agreements to **extract and manage special requirements**.
- Creating and updating **PFMEAs** (Process Failure Mode and Effects Analysis).
- Writing and maintaining **operating instructions and procedures**.
- Participating in **production problem-solving initiatives**.
- Acting as the primary **point of contact for clients** regarding project updates.
- Analysing production efficiency and **identifying opportunities for improvement**.
- Ensuring project timelines and deliverables are met using **tools** like **Gantt charts and Microsoft Project**.

Requirements

- Proven **experience in project management**, preferably in a manufacturing or automotive environment.
- Strong **leadership** and **team coordination** skills.
- Excellent **communication** and **mediation** abilities.
- Fluent in **Italian and English** (spoken and written).
- Proficiency with **Microsoft Project** and Gantt chart planning.
- Skilled in **Microsoft Office tools** (Excel, Word, PowerPoint, etc.).
- Familiarity with **quality tools** and methodologies (e.g., PFMEA, root cause analysis).

Application process

Please send us your complete application documents including CV, a cover letter and details of availability and salary expectations. Job interviews will be conducted in English.

Become part of our dynamic team at Pressteck and shape the future with us. Contribute to our mission of delivering high precision quality products to our esteemed clients worldwide.

Apply today and be part of our success story! We look forward to receiving your application by e-mail to info@pressteckspa.com.
